UNICELL®

THE ONE PIECE FIBERGLASS VAN BODY

CLASSICUBE VAN BODY

UNICELL
Ford Authorized Upfitter

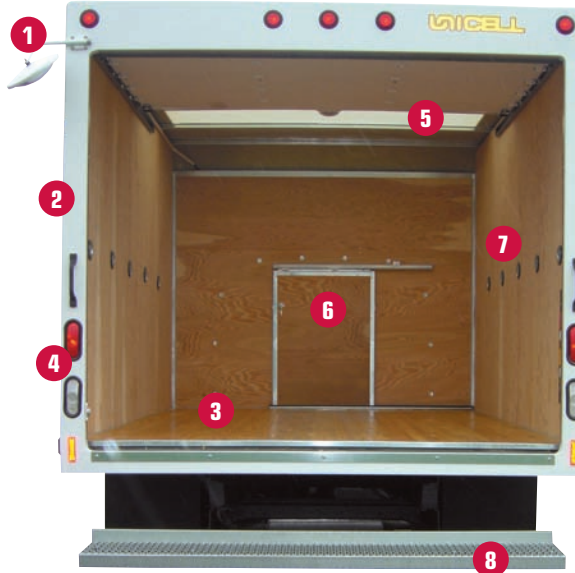

1. Better Visibility
Required in some states, the cross-view mirror provides a clear view of the rear of the truck.

2. Beautiful Exterior
No seams. No rivets. Smooth, glossy surface is perfect for company graphics. Five times tougher than .040" aluminum and better puncture resistance than 1/2" plywood.

3. Tough Floor
1-1/2" dense yellow pine with a heavy-duty steel understructure.

4. High Profile Taillights
Taillights are easier to see and less prone to damage.

5. Bright Interior
Built in skylight and 12V dome light provide a well-lit interior and safer work area.

6. Easy Access
The optional extra large sliding bulkhead door allows comfortable access between cab and body. Set back bulkhead wall for roomier cab.

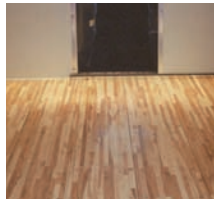

7. Lining Choices
Optional 3/8" plywood lining with D-rings for securing cargo.

8. Safety Step
Standard galvanized steel grip strut step bumper has an extra deep non-skid surface.

Some available equipment. View more on our website at www.unicell.com

Aluminum sliding walk ramp

Laminated hardwood floor

Narrow swing-out rear doors with windows

Attic storage over cab

Standard slat lining

Plywood/Slat/Plywood lining
